

700XP

Electric Hob Cooking Tops

The 700XP range is comprised of over 100 models designed to guarantee the highest level of performance, reliability, energy saving, safety standards and ergonomic operation. These concepts are reflected throughout the line in its modularity, construction and numerous configurations: countertop (on base or table), free-standing, on concrete or stainless steel plinth, bridged or cantilever. Thanks to its advance technology and premium performance, 700XP is a perfect solution for institutions of small sizes with limited footprint as well as restaurants needing to obtain the most from the kitchen space. The models detailed in this sheet are electric hob cooking tops.

EASY TO INSTALL

- Main connections are accessible from the back of the unit.
- Access to all components from the front.
- Provided with a service duct to facilitate installation and can be mounted on table tops, open base cupboards, bridging or cantilever supports.

EASY TO CLEAN

- One piece pressed worktop in 1,5mm stainless steel with smooth, rounded corners.
- Exterior panels in stainless steel with Scotch Brite finish.
- All models have right-angled, laser cut side edges to allow for the flush-fitting of units side-by-side thus eliminating gaps and possible dirt traps.

EASY TO USE

- The electric solid top is ideal for kitchens needing a flexible and powerful cooking top. It allows the chef to easily move pots and pans from one area of the cooking surface to another without the need of lifting.
- Infrared heating elements with maximum temperature of 400 °C on the cooking surface.
- Pans can easily be moved from one area of the cooking surface to another without the need of lifting.

EASY TO MAINTAIN

- IPX4 water protection.
- The special design of the control knobs and bezels guarantees against water infiltration.

EASY ON THE ENVIRONMENT

- 98% recyclable by weight.
- CFC free packaging.
