Half mod. electric fry tops-Thermostatic

The 900XP range is designed to guarantee the highest level of performance, reliability, energy saving, safety standards and ergonomic operation. These concepts are reflected throughout the line in its modularity, construction and numerous configurations: countertop (on base or table), free-standing, on concrete or stainless steel plinth, bridged or cantilever. Thanks to its advanced technology and premium performance, 900XP is a perfect solution for restaurants as well as large institutions needing high power and high productivity. The models detailed in this sheet are half module electric fry tops with thermostatic control.

EASY TO INSTALL

- Main connections can be accessed via the bottom or rear of the unit.
- Access to all components from the front.
- Can be mounted on table tops, open base cupboards bridging or cantilever supports.

EASY TO CLEAN

- One piece pressed worktop in 2 mm stainless steel with smooth, rounded corners.
- Exterior panels in stainless steel with Scotch Brite finish.
- All models have right-angled, laser cut side edges to allow flush-fitting joins between units eliminating gaps and possible dirt traps.

• Removable splash-guard in stainless steel covers back and sides of the cooking surface and is dishwasher safe.

EASY TO USE

- The electric fry top is ideal for cooking meat, fish or vegetables to perfection by placing the food directly on the cooking surface.
- Cooking surface in mild steel with smooth or ribbed plate is ideal for repeated cooking of the same type of food.
- Cooking surface in polished chrome with smooth plate guarantees no absorption of the cooking juices by the plate resulting in no flavour transfer and allowing to cook different types of food on the same cooking surface

for more flexibility. Very little energy is lost to the kitchen environment due to the reflective qualities of the chromium surface, making the work area more comfortable.

- The cooking plate is 15mm thick to provide extremely even temperature distribution.
- Temperature range adjustable from 120°C to 280°C.
- Very fast heat-up time to maximum temperature.
- On the front of the cooking surface there is a large drain hole to drain excess grease and fat into a 1,5 liter grease collection drawer.
- Large grease collection container available as optional accessory to be installed under top units over open base cupboard.

900XP Half mod. electric fry tops-Thermostatic

- Incoloy armoured heating elements positioned beneath the cooking plate.
- High precision thermstatic control.
- Scrapers with smooth or ribbed blades included as standard.

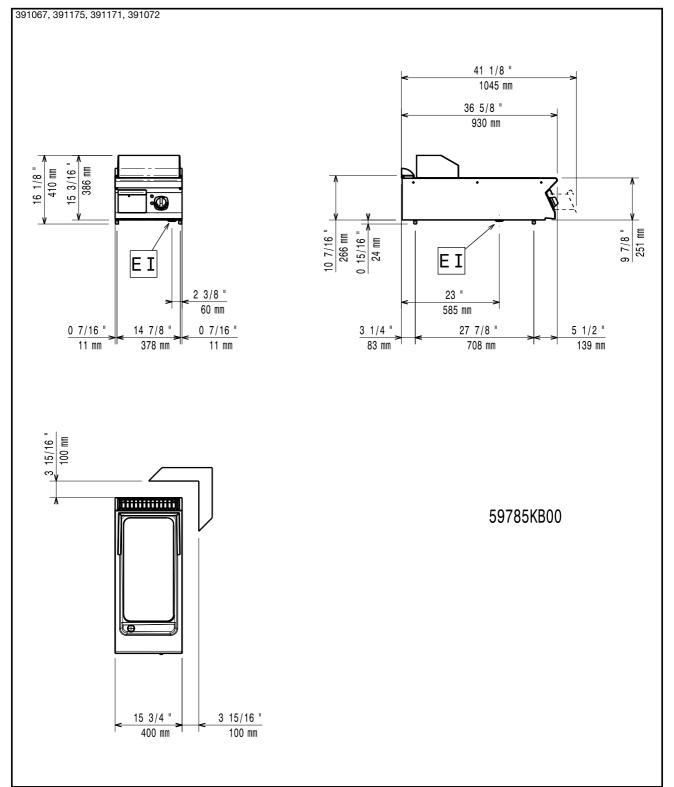

EASY TO MAINTAIN

- IPX5 water protection.
- The special design of the control knobs and bezels guarantees against water infiltration.

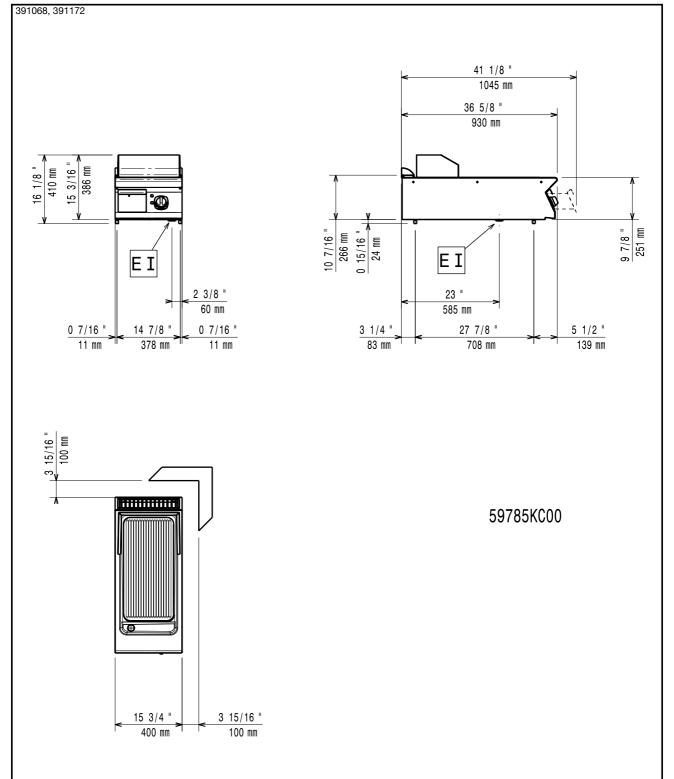

EASY ON THE ENVIRONMENT

- 98% recyclable by weight.CFC free packaging.
